Ernakulam, Kerala - 682006, India

PROFESSIONAL SUMMARY

Results-driven AI/ML enthusiast with expertise in data annotation, multimodal analysis, and model development. Quick to adapt, committed to data quality, and able to drive process improvements. Ready to make a measurable impact through technical rigor, collaboration, and innovative thinking for any forward-focused team.

EXPERIENCE

- Tata Elxsi** Jun 2024 - Jul 2024
AI/ML Intern Thiruvananthapuram, India
Designed and improved AI/ML models for real-time, hardware-integrated systems, achieving significant efficiency gains. Applied MATLAB to optimize workflows and collaborated closely with technical teams, strengthening hands-on expertise in practical machine learning deployment.
- TILT LABS** May 2023 - Jul 2023
Game development Intern Hybrid
Utilized Unity, C#, and Blender to create immersive game elements, contributing to successful game prototypes. Streamlined production workflows with automated scripting tools, reducing development time by 15%. Assisted in designing and deploying gameplay mechanics, enhancing project success.

EDUCATION

- Adi Shankara Institute of Engineering and Technology** 2021 - 2025
B.Tech Kerala, India
CGPA: 7.82
- Chinmaya Vidyalaya, Vaduthala** 2021
Higher Secondary Education Kerala, India
Grade: 91.20
- Chinmaya Vidyalaya, Vaduthala** 2019
Secondary Education Kerala, India
Grade: 84.00

PROJECTS

- Voice Bot App** 2025
Tools: Python, Flask, SpeechRecognition, Text-to-Speech (gTTS), HTML, CSS, JavaScript 
Developed an interactive voice-based chatbot application capable of understanding and responding to natural language inputs using speech recognition and text-to-speech integration. Implemented AI-driven conversational logic and optimized user interaction flow, enhancing accessibility and user engagement through seamless voice communication.
- GeoVision: Satellite Image Object Detection** 2025
Tools: Python, TensorFlow, Keras, OpenCV, NumPy, Matplotlib 
Built a satellite image detection system to identify and classify objects or changes (e.g. land cover, urban growth) using computer vision and geospatial techniques. Integrated deep learning models (CNN/segmentation) and pre-processing pipelines to enhance accuracy and automate large-scale image analysis.
- Streamlining Hospital Waste Management** 2024
Tools: Python, Flask, HTML, CSS, JS, ML, Tensorflow, Image classification 
Developed a Hospital Waste Classification System that efficiently categorizes waste into organic, recyclable inorganic, and non-recyclable inorganic using AI models. This funded project aimed to enhance waste management processes, ensuring improved environmental safety and resource management.
- Voice Emotion Recognition** 2023
Tools: Python, Flask, HTML, CSS, JS, ML, Tensorflow 
Engineered an AI-powered website to analyze voice inputs and return corresponding emotional analysis with 92% accuracy. Integrated machine learning models into a functional web interface, improving user interaction and experience. Conducted detailed audio data labeling and feature extraction using MFCC, ZCR, and MelSpectrogram, enabling accurate emotion classification.

SKILLS

- **Programming & Tools:** Python, MATLAB, SQL, Git, Jupyter, Power BI
- **Machine Learning & AI:** TensorFlow, Keras, Scikit-learn, OpenCV
- **Data Processing:** Data cleaning, Feature engineering, Audio/Text/Image labeling
- **Areas of Expertise:** Natural Language Processing (NLP), Computer Vision, Model Deployment
- **Web Technologies (For AI integration):** Flask, REST APIs, HTML, JavaScript
- **Soft Skills:** Problem-solving, Collaboration, Attention to detail

CERTIFICATIONS

- | | |
|--|----------|
| • Microsoft : Microsoft Certified: Power BI Data Analyst Associate | Jun 2025 |
| • GP3 Cloud Innovations : Generative AI- 30 hours Add-on Course | Dec 2024 |
| • ICT Academy : Infosys Foundation Finishing School for Employability Program | Oct 2024 |
| • Infosys Springboard : Artificial Intelligence Foundation Certification | Aug 2024 |
| • LinkedIn : Python for Data Engineering: from Beginner to Advanced | Jul 2024 |
| • IEEE : IEEE Xtreme 17.0 Hackathon | Oct 2023 |

ACHIEVEMENTS

- Shortlisted for and participated in YIP 2022.
- Competed in the international-level Hackathon IEEE Xtreme 2024.
- Took part in Tata Elxsi Teleport Season 2.
- Achieved 99.34 percentile in Round 1 of the Naukri Young Turks program.
- Project approved for KTU CERD funding.

LEADERSHIP AND VOLUNTEER

- | | |
|--|---------------------|
| • Campus Lead
TinkerHub, ASIET
Leadership
Spearheaded initiatives to teach and mentor students in various tech domains.
Organized collaborations with tech companies, enabling students to gain industry exposure. | Jan 2022 - Jun 2023 |
| • Technical Lead
TinkerHub, ASIET
Technical support and empowerment
Led various technical workshops and events, empowering students to enhance their skills in emerging technologies.
Fostered a collaborative learning environment, connecting with industry professionals to provide valuable insights. | Jun 2023 - Jun 2024 |
| • SCT Member
IEEE SB, ASIET
Student Coordination Team Member
Coordinated and taken part in various activities.
Communication, adaptability, creative thinking, team work | Jun 2023 - Jun 2024 |
