Ernakulam, Kerala - 682006, India

PROFESSIONAL SUMMARY

Dedicated and results-driven Computer Science Engineering student specializing in Artificial Intelligence, with expertise in Python, MATLAB, and AI/ML model development. Proven ability to lead technical initiatives and deliver impactful solutions in professional environments. Seeking opportunities to contribute to innovative projects in technology-driven organizations.

EXPERIENCE

- Tata Elxsi** June 2024 - July 2024
Intern Thiruvananthapuram, India
 - Collaborated on AI/ML projects intended for hardware integration, improving system efficiency by 50%. Optimized machine learning models in MATLAB, providing insights for real-time applications. Gained hands-on experience in a professional environment, enhancing technical proficiency and teamwork skills.
- TITLABS** May 2023 - July 2023
Intern Hybrid
 - Utilized Unity, C#, and Blender to engineer immersive game elements, contributing to the development of game prototypes. Streamlined game production workflows by introducing automated scripting tools, reducing development time by 15%. Assisted in the design and deployment of gameplay mechanics, contributing to the success of multiple projects.

EDUCATION

- Adi Shankara Institute of Engineering and Technology** 2021 - 2025
B.Tech Kerala, India
 - CGPA: 7.52
- Chinmaya Vidyalaya, Vaduthala** 2021
Higher Secondary Education Kerala, India
 - Grade: 91.2%
- Chinmaya Vidyalaya, Vaduthala** 2019
Secondary Education Kerala, India
 - Grade: 84%

PROJECTS

- Voice Emotion Recognition** 2023
Tools: Python, Flask, HTML, CSS, JS, ML, Tensorflow 
 - Engineered an AI-powered website to analyze voice inputs and return corresponding emotional analysis with 92% accuracy. Integrated machine learning models into a functional web interface, improving user interaction and experience.
- Portfolio** 2023
Tools: NextJS, HTML, CSS, JS 
 - Designed and launched a personal portfolio website to showcase academic and technical achievements, achieving a 25% increase in web traffic due to SEO optimization. Focused on building a responsive and visually engaging layout, optimizing user navigation on multiple devices.
- FPS Game** 2023
Tools: Unity, Blender, 
 - Developed a first-person shooter (FPS) game using Unity and Blender, incorporating 3D models and animations to enhance player experience. Refined gameplay features based on user feedback, resulting in a smoother interface and improved functionality.
- Streamlining Hospital Waste Management** 2024
Tools: PYTHON, FLASK, HTML, CSS, JS, ML, TENSORFLOW, Image classification 
 - Developed a Hospital Waste Classification System that efficiently categorizes waste into organic, recyclable inorganic, and non-recyclable inorganic using AI models. This funded project aimed to enhance waste management processes, ensuring improved environmental safety and resource management.

SKILLS

- Python, C, HTML, CSS, JavaScript
- AI, ML, Web Development, UI/UX, Microsoft Office, SQL, UiPath
- Communication, Presentation, Decision Making, Leadership
- Artificial Intelligence Algorithms, Data Preprocessing, API Integration, Docker, Pycharm, Overleaf, Microsoft Azure, Jupyter, Visual Studio Code, Google Collab

ACHIEVEMENTS

- Shortlisted for and participated in YIP 2022.
- Competed in the international-level Hackathon IEEE Xtreme 2024.
- Took part in Tata Elxsi Teleport Season 2.
- Achieved 99.34 percentile in Round 1 of the Naukri Young Turks program.
- Developed a website for the AI department fest: [Prayag24](#).
- Project approved for KTU CERD funding.

LEADERSHIP & VOLUNTEER EXPERIENCE:

- **Campus Lead** January 2022 - June 2023
TinkerHub, ASIET
 - Leadership
 - Spearheaded initiatives to teach and mentor students in various tech domains.
 - Organized collaborations with tech companies, enabling students to gain industry exposure.
- **Technical Lead** June 2023 - June 2024
TinkerHub, ASIET
 - Technical support and empowerment
 - Led various technical workshops and events, empowering students to enhance their skills in emerging technologies.
 - Fostered a collaborative learning environment, connecting with industry professionals to provide valuable insights.
- **SCT Member** June 2023 - June 2024
IEEE SB, ASIET
 - Student Coordination Member
 - Coordinated and taken part in various activities.
 - Communication, adaptability, creative thinking, team work

CERTIFICATIONS

- **Infosys Springboard: Artificial Intelligence Foundation Certification** August 2024
- **ICT Academy:** Infosys Foundation Finishing School for Employability Program October 2024
- **MathWorks: MATLAB Onramp** June 2024
- **LinkedIn:** Python for Data Engineering: from Beginner to Advanced July 2024
- **GP3 Cloud Innovations :** Generative AI- 30 hours Add-on Course December 2024
- **IEEE :** IEEE Xtreme 17.0 Hackathon October 2023

PROFESSIONAL MEMBERSHIPS

- **IEEE** November 2021 Year - Present
- **Google Developer Student Club** September 2023 - Present
- **TinkerHub** November 2021 - Present

ADDITIONAL INFORMATION

- **Languages:** English (S,R,W), Malayalam (S,R), Hindi (S,R), Tamil(S)
